Spring is here!

Finally spring is here and the sun is out. We have been spending more time outside and the kids are loving it. We are going to attempt to try to get outside every day that the weather permits it. Please make sure your children are clothed for outside play. Now that the sun is out we will also be starting to apply sunscreen more often. We will provide sunscreen at daycare but the brand all depends on what is available during the time of purchase. If you would like your child to have their own bottle or a specific brand please put their name on the bottle and we can store it here at daycare.

### Medications

If your child has prescription medications such as an epi-pen or inhaler for example, please let Mika know so she can notify the staff and be aware of the child's symptoms to be able to deal with anything if it may arise. Please bring a bag with the prescription to daycare every time the child visits or leave an extra set here. We do have a locked medication box, so it will be put up and secure from other children. The more time we spend outside allergies will begin to kick in asthma can flare up and bees will be out and about. Knowing about children's symptoms and having the proper medications and knowledge will be very beneficial to the child, and less of a stress to the staff and you as a parent or guardian.

### Easter

The staff would like to have an Easter egg hunt with the children. We plan on having a nice little treat and then hunt for eggs outside if the weather is nice. If you would like to help out in any way or know more feel free to ask Mika at daycare.
