## June 2018

### Memorial Day

We had a pretty good turn out and I would like to thank everyone that was able to come out and support ABC Huskies by coming to the breakfast ☺

### Daycare Fire/Fence

I keep getting asked about the fire that happened at daycare a June 8<sup>th</sup> so I figured I would address that in the newsletter. On the 8<sup>th</sup> after closing our neighbor called in a small fire in the bark chips. In one of the corners outside there was a large amount of bark chips that ended up spontaneously combusting. The fire department informed us that bark chips are a lot like hay and will at random do this when it gets overly hot this probably happened due to 1. The pile was overly deep and 2. There was a big toy box sitting on top which we have gotten rid of. Other than a few bark chips and the toy box at the end of the day nothing else was harmed. We do have a plan though!!!!

We are sorry for the inconvenience of our Fence being shut. We did have someone come take a look at the fence and he thinks he can fit us in towards the end of July. So hopefully our fence will be repaired by the end of the Summer.

### Dirt Area

Due to the fire we were trying to figure out how to disperse the bark chips and lessen the amount over towards the end of the patio area. So between the end of July and Mid-August We are going to move the bark chips out of that whole area and then build another wall of concrete and then we will add more dirt. I'm sure you are all reading this in suspense like what is her plan!

Well we are going to have a dirt patch for all the kids to dig or play with trucks or farm or whatever their little heart's desire in! We can even hide dino bones or dig for worms many different things can come from this over time. As you can tell I'm super excited about this. Also if any of our parents have excess dirt or know of a place to get good top soil go ahead and let me know please and thank you.
